

Slideshow

The Slideshow option lets you create and place a slideshow inside an article or anywhere on your site.

- The Slideshow title appears as the link to the slideshow when placed in an article
- Each Slideshow image has its own title and caption
- SOCS supports HTML so you can add special text effects, links to web sites or e-mail addresses
- The images you upload must be JPEG or GIF format

To Create a Slideshow

Select **Content, Slideshow** on the SOCS Toolbar.

Slideshow

Find Slideshow

Search Titles By Keyword(s):

Limit Search to the Month/Year Created:

Check this box and select a month and year below.

— all (Jan-Dec) — 2002

Slideshows created within the last five days are listed below.

Edit Slideshow	Title	ID	Date Created
<i>No slideshows have been defined.</i>			

To add a new Slideshow, select **Add Slide Show**.

Enter a title (slideshow title appears as the link to the slideshow) and select **Continue**.

Add Slideshow

Slideshow ID:

Slideshow Title:

1. Enter a **Slide Title**.
2. Enter a **Slide Caption**. Although this is an optional field, it is suggested you always put in a caption. The caption enables the visually impaired using screen readers to know what the picture is.
3. Select **Browse** to find image (images must be .jpg or .gif). Highlight the desired image and select **Open** to import the file.
4. Select **Add Slide**.

5. Repeat this process until slideshow is complete. Select **Finish** when you have completed your slideshow.

Add Slide

Slide Title:

Slide Caption:

Slide Image:

After you create your slideshow, you can re-order the sequence of the slides or edit your slideshow.

To Re-Order Slides

To re-order slides in the slideshow, select **Re-order Slides**.

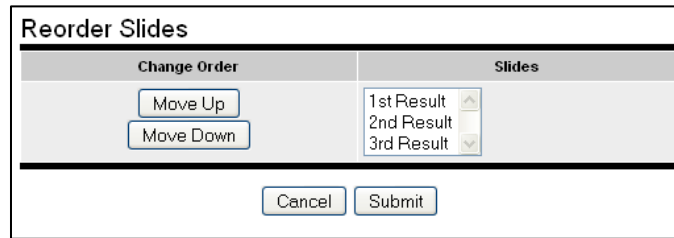

Edit Slideshow

Slideshow Title: My summer vacation
Slideshow ID: 435fd1878bd6e

Edit Slides

Edit Slide	Slide Title	Thumbnail
	Beautiful rainbow	
	Mount Rushmore	
	Cute little guy	

Select the slide and choose the **Move Up** or **Move Down** button depending on where you want to move the slide.

The 'Reorder Slides' dialog box is divided into two main sections. On the left, under the heading 'Change Order', there are two buttons: 'Move Up' and 'Move Down'. On the right, under the heading 'Slides', there is a list of three items: '1st Result', '2nd Result', and '3rd Result'. Each item has a small upward-pointing arrow to its left and a downward-pointing arrow to its right, indicating they can be moved. At the bottom of the dialog, there are two buttons: 'Cancel' and 'Submit'.

When finished, select **Submit**.

To Edit a Slideshow

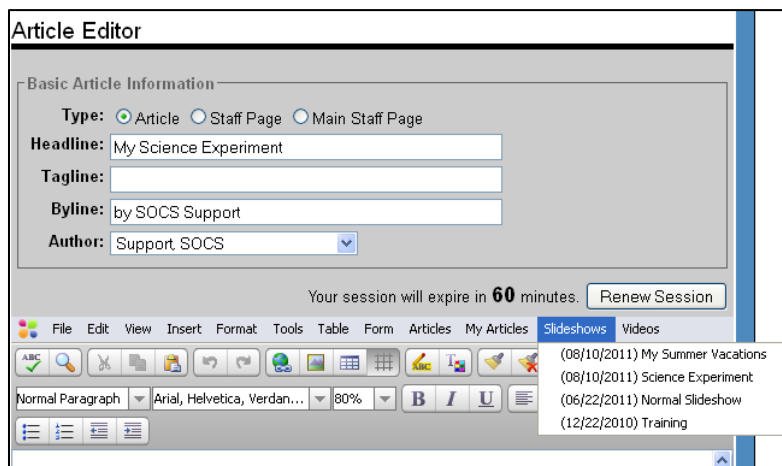

1. Select the **Edit Slideshow** button to:
 - Change title
2. Select **Edit Slide** icon to:
 - change the Slide Title
 - change/add the Slide Caption
 - change the Current Image
 - to Delete the Slide (when deleting, you must confirm deletion)
3. When finished, select **Update Slide**.

To Delete a Slideshow

1. Select **Edit Slideshow**.
2. Select **Delete Slide Show** (when deleting, you must confirm deletion).

Adding a Slideshow to an article

To add a Slideshow to a new or existing article, place your cursor where you want the slideshow to appear within the body of the article. Select Slideshow from the Article Editor and select the desired slideshow.

The 'Article Editor' interface shows a form for 'Basic Article Information'. The 'Type' is set to 'Article'. The 'Headline' is 'My Science Experiment'. The 'Tagline' is empty. The 'Byline' is 'by SOCS Support'. The 'Author' is 'Support SOCS'. A session expiration notice says 'Your session will expire in 60 minutes.' with a 'Renew Session' button. Below the form is a menu bar with 'File', 'Edit', 'View', 'Insert', 'Format', 'Tools', 'Table', 'Form', 'Articles', 'My Articles', 'Slideshows', and 'Videos'. The 'Slideshows' menu is open, showing a list of slides: '(08/10/2011) My Summer Vacations', '(08/10/2011) Science Experiment', '(06/22/2011) Normal Slideshow', and '(12/22/2010) Training'. A rich text editor toolbar is visible at the bottom.

If your Slideshow does not display within the list, open your slideshow and copy the HTML code from the Slideshow Links screen. You may also provide the HTML code for your slideshow to post to other sites.

Slideshow Links

In Java Editor: Use the slideshow menu to insert a slideshow

In other applications: Copy and paste the code below.

Disability-Compliant Code: [Accessible Pop-up Links](#)

```
<a href="http://vpc.socsdemo.fes.org/vslideshow/viewer.v?
